TROPICAL CYCLONE BULLETIN NR. 16F
Typhoon KIYAPO (NOUL)

Issued at 11:00 AM, 25 July 2026

"KIYAPO" MAINTAINS ITS STRENGTH WHILE MOVING TOWARDS SOUTHERN CHINA.

Location of Center (10:00 AM)

The center of Typhoon KIYAPO was estimated based on all available data at **465 km West of Basco, Batanes (21.1°N, 117.4°E) (OUTSIDE PAR).**

Intensity

Maximum sustained winds of **120 km/h** near the center, gustiness of up to **150 km/h**, and central pressure of **975 hPa.**

Present Movement

Northwestward at 25 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **470 km** from the center

Typhoon KIYAPO (NOUL)
Issued at 11:00 AM, 25 July 2026

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 17 issued at 11:00 AM today** for the heavy rainfall outlook due to the Southwest Monsoon.

Severe Winds

The Southwest Monsoon and the periphery of KIYAPO will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Most of Luzon, Western Visayas, Negros Island Region, Northern Samar, Zamboanga del Norte, and Davao Oriental.
- **Tomorrow (26 July):** Batanes, Cagayan, Ilocos Region, Zambales, Bataan, Quezon, and MIMAROPA.
- **Monday (27 July):** La Union, Pangasinan, Zambales, Lubang Islands, and Kalayaan Islands.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The seaboard of Batanes.
- **Up to 3.0 m:** The seaboard of Babuyan Islands; the northern seaboard of Ilocos Norte; the northeastern seaboard of mainland Cagayan.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate to rough seas over the following coastal waters:

- **Up to 2.5 m:** The northern seaboards of Isabela and Ilocos Sur; the western seaboard of Kalayaan Islands; the remaining seaboards of mainland Cagayan and Ilocos Norte.
- **Up to 2.0 m:** The seaboard of Zambales; the northern seaboard of La Union; the western seaboards of Pangasinan, Bataan, Calamian Islands, and Occidental Mindoro including Lubang Islands; the eastern seaboard of Davao Oriental; the remaining seaboards of Isabela, Ilocos Sur, and Kalayaan Islands.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

TRACK AND INTENSITY OUTLOOK

- KIYAPO is forecast to move generally northwestward until tomorrow (26 July) towards southern mainland China before turning north northwestward. Due to favorable environment conditions, KIYAPO will continue to strengthen in the next 12 hours, prior to its landfall. Afterwards, KIYAPO is expected to weaken rapidly as it moves further inland over mainland China.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless re-entry occurs, this is the final bulletin for this weather disturbance.
